

たしざんを なぞって こたえをかきましょう。

Counting: 6 blue candies + 3 pink candies = 9 candies.

Equation:  $6 + 3 = 9$

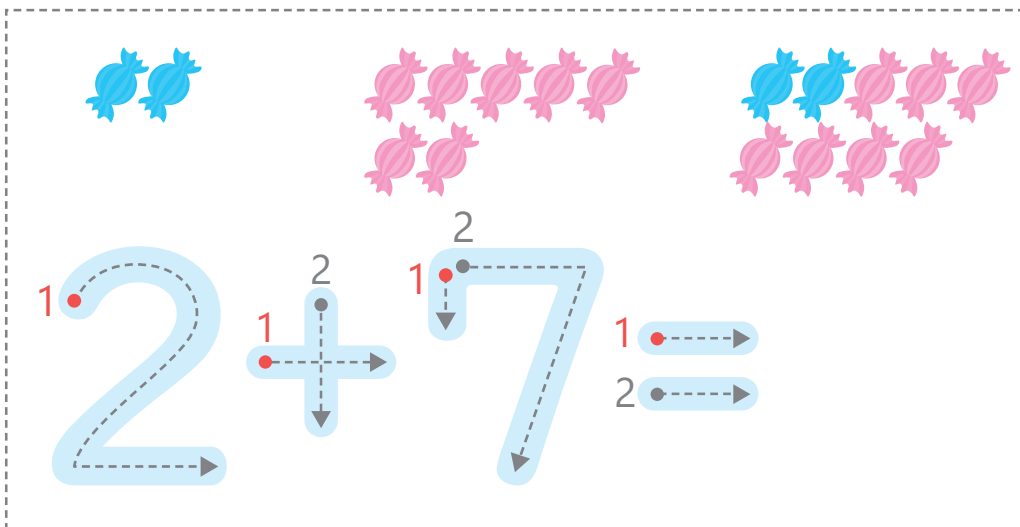

Tracing: The number 6 is formed by stroke 1 (a counter-clockwise curve) and stroke 2 (a vertical line down). The number 3 is formed by stroke 1 (a top curve) and stroke 2 (a bottom curve). The number 9 is formed by stroke 1 (a counter-clockwise curve) and stroke 2 (a vertical line down).

Counting: 5 blue candies + 2 pink candies = 7 candies.

Equation:  $5 + 2 = 7$

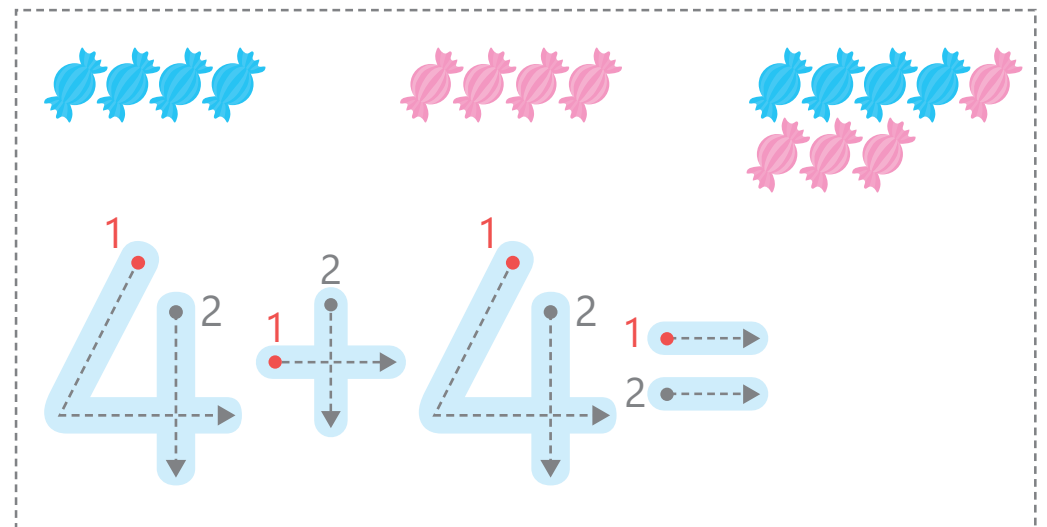

Tracing: The number 5 is formed by stroke 1 (a vertical line down) and stroke 2 (a horizontal line across the top). The number 2 is formed by stroke 1 (a top curve) and stroke 2 (a bottom curve). The number 7 is formed by stroke 1 (a vertical line down) and stroke 2 (a horizontal line across the top).

Counting: 2 blue candies + 7 pink candies = 9 candies.

Equation:  $2 + 7 = 9$

Tracing: The number 2 is formed by stroke 1 (a top curve) and stroke 2 (a bottom curve). The number 7 is formed by stroke 1 (a vertical line down) and stroke 2 (a horizontal line across the top). The number 9 is formed by stroke 1 (a counter-clockwise curve) and stroke 2 (a vertical line down).

Counting: 4 blue candies + 4 pink candies = 8 candies.

Equation:  $4 + 4 = 8$

Tracing: The number 4 is formed by stroke 1 (a diagonal line down) and stroke 2 (a vertical line down). The number 8 is formed by stroke 1 (a counter-clockwise curve) and stroke 2 (a vertical line down).
